

# VetMedTeam Veterinary Assistant Program

## Extended Payment Plan Agreement

The total fee for the Extended Payment Plan option is \$994.00. The textbook is not included and must be purchased separately, outside of VetMedTeam, by the student.

This payment plan divides the total payment of \$994.00 into multiple installments as follows:

1. \$174.00: Due at enrollment
2. \$ 82.00: Due as a student moves from online section to online section. There are ten \$82.00 payments required for a total of \$820.00.

The clinical experience portion of the course cannot begin until all payments have been made. The student may work on determining their clinical practice before all payments are made, however. Students are provided with information and search aids 2/3rds of the way through the online portion of the program.

**Refunds:** Installment payments are not refundable. Failure to complete the program does not provide any level of return of fees already paid.

The time allotted for completion of the online courses or the clinical component does not change with the payment plan.

Please read the statement below and indicate understanding and acceptance of the factors and conditions of the extended payment plan via name, date, and signature.

This document must be scanned as a PDF and attached to the initial "Intent to Enroll" email.

I, (print name clearly) \_\_\_\_\_ have read both this document and the program information in the course catalog. I fully understand the factors and requirements regarding using the Extended Payment Plan to enroll and pay for the program. I accept the requirements and I acknowledge and accept the no refund policy.
